Press release

The Multitinker

Mühlthal, 19.06.2023: The Multitinker from Riese & Müller is the clever replacement for the car around town. With its broad array of cargo equipment options, its compact frame and 20-inch wheels, this model brings together the transport capabilities of the Multicharger and the manoeuvrability of the Tinker to tackle your day-to-day challenges in urban spaces. The space-saving bike safely and effortlessly carries two children, your weekly shopping or all kinds of goods to their destination.

A characteristic feature of the Multitinker is its extra-long carrier equipped with numerous cargo options and interfaces for accessories and capable of transporting up to 65 kg. Younger children are optimally protected by the optional Safety Bar kit with safety bar, comfortable foam seat and spoke protector. The optional Passenger kit provides bigger passengers with a comfortable place to sit with its foam seat, spoke protector and grab handle. There is also a waterproof, high-volume cargo bag available to transport goods and shopping. The interface for attaching a trailer and the front luggage carrier also give you extra flexibility. A particularly ingenious detail and special feature of the extended rear stay is the integrated and lockable frame bag permanently installed behind the seat tube and that provides storage space for a jacket, leggings or some shopping.

Even loaded up, the Multitinker rides exceptionally safely and with great stability. This is due to the low centre of gravity from the small yet wide 20-inch wheels and a battery fully integrated into the frame. The smart system from Bosch with the powerful Performance Line CX motor and 625 Wh battery supplies the power you need to transport all you need quickly and reliably. Like the Tinker, the Multitinker is also equipped with an angle- and height-adjustable stem and adjustable seatpost. This enables it to be adapted to different rider sizes quickly and easily and makes it ideal for your family to use flexibly.

The Multitinker is available in different colours and equipment versions, with a Shimano Deore 10-speed derailleur gear or Enviolo 380 hub gear and belt drive.

RIESE & MÜLLER

About Riese & Müller

Riese & Müller is a German premium manufacturer of E-Bikes, Cargo Bikes and folding bikes. Founded in 1993 by Markus Riese and Heiko Müller, the owner-managed company now employs 900 people at its premises in Mühlthal near Darmstadt and sells its products worldwide through an exclusive dealer network. Alongside the founder and CEO Heiko Müller, Dr Sandra Wolf operates as CEO with responsibility for the strategic orientation of Riese & Müller. Markus Riese is involved in the company both as a partner and engineering mentor. Riese & Müller is helping to shape the mobility of tomorrow with its pioneering products and as the specialist in Cargo Bikes and fast HS bikes. The company is synonymous with a sustainable lifestyle, user-focused product development and innovative E-Bike technologies. In addition to the ongoing evolution of its products, Riese & Müller's overall strategy includes taking responsibility for people and the environment. In its activities, the company is guided by its four pillars of responsibility: culture, ecology, social responsibility and economics.
